

DUTCHMAN TREE TYER

U.S. PATENT: #6,981,443
CDN PATENT: #2,435,651

The Dutchman Tree Tyer is yet another innovative product capable of tying standing trees in seconds. Up to 40 trees can be tied per hour, cutting the cost of labor dramatically! Angled tubes for initial branch lift, hydraulic gate-opening, and insert "downsizing rings" make it very *user-friendly* to center & tie. Designed and used at our own nursery, this rugged tree tyer was built to last with little or no maintenance. It's unique design allows for a tight, even wrap for all trees, reducing the chance of damaged branches while shipping.

THE SIMPLEST AND FASTEST WAY TO TIE YOUR TREES!
